Local administration of the City of Leskovac is committed to the task of creating all the preconditions for economic development and opening new investment cycle. This process will be enhanced by good municipal infrastructure.

City of Leskovac is the first one in Serbia that applied the regional management of solid waste by constructing the sanitary landfill in line with the highest standards in the field of environmental protection. Our city has a water supply system “Barje”, too, which solved the problems of water supply throughout the region. Leskovac will also build a waste water treatment plant with the support of partners from the European Union. This project creates preconditions to preserve and protect environment.

We work very intensively on research of geothermal resources in the Leskovac valley. This project should significantly help achieving the vision of the development of south Serbia as a region of green energy. It will also help that agriculture, as our strategic priority, could brand the products from this region. We strive to build efficient and modern administration with entrepreneurial role.

It is an important part of our vision- to create favorable business environment in Leskovac. Welcome to Leskovac.

Mayor of Leskovac
Slobodan Kocic

Our goal is to provide to all the citizens equal chances for dignified life.

Economic development, equal prosperity of urban and rural areas, infrastructure modernization, health centers, schools – all these are preconditions to bring back the old glaze to our city.

City of Leskovac can and must be more interesting and pleasant place for living. That is why together we can create attractive environment for investments and donations, for opening new jobs and establishing positive and healthy creative atmosphere.

Our strategic goals:

To develop Leskovac as an economic, cultural, touristic and regional center of South Serbia;

Efficient, business effective city administration with good internal and external communication;

Protect the environment as the imperative of sustainable economic development;

Timely, comprehensive, high quality and continuous service in the field of social activities.

We would like to invite You to come and make sure that Leskovac is the place where You can...
Serbia has the potential

BY NUMEROUS BENEFITS SERBIA WANTS TO ENCOURAGE INVESTORS

- 10% corporate profit tax.
- Free trade agreements with Russia, Albania, Belorussia, Bosnia and Herzegovina, Croatia, Macedonia, Moldova and Turks.
- Imported equipment is exempted from custom duties and other import charges, except for motor vehicles and gambling machines.

- Profit earned in Serbia can be freely transferred abroad.
- In case of employing persons older than 50, the employer is freed from paying all the taxes and contributions on wages.
- Foreigners temporarily residing in Serbia for more than two years, can import motor vehicles without paying custom duties.
- Various government subsidies and tax exemptions for creating new jobs.
Welcome to Leskovac

City of Leskovac is among 5 most important cities in Serbia:

- **Number of inhabitants:** 156,252
- **Area:** 1.025km²
- **Work force:** 92,869 – 59.4% of total employed 26,914, unemployed 20,922
- **Average monthly salary:** 279 EUR net
- **Gross Domestic Product:** 1251 EUR per capita
- **City budget:** 25 601.243 EUR
- **Five rivers:** Morava, Veternica, Jablanica, Pust reka, Vlasina
- **Five mountains:** Kukavica, Cemernik, Suva planina, Stara planina, Radan
- **Pan-European corridor 10** (highway, railway)
- **Distance from international airports:**
  - Nis 45 km
  - Sofia 150 km
  - Skopje 160km
  - Belgrade 288 km
  - Thessaloniki 320 km

- **Usage of area – 90%**
  (agricultural land – 57,600ha and forest – 16,200ha)
- **Natural resources**
  (soil, mineral and thermal water, wood..)

City of Leskovac as regional center of Southern Serbia will:

- Create business friendly environment for foreign direct investments
- Enable economic development through support of new technologies, SMEs, agriculture and healthy food production
- Develop institutional framework through capacity building of local institutions oriented on positive synergies of public private partnership
- Create equal opportunities for all citizens for good quality of life, living standard, education, health protection and housing
- Promote entrepreneurial spirit in order to create new jobs
- Enforce development activities to improve look of the city and living environment
- Become an open society and pleasant place for living
The area of the Leskovac city is situated at the high from 210 to 240 above sea level and is located in the fertile basin, bordered by Babicka Gora, Selicevica and Suva planina to the East and Radan mountain and Pasjaca to the West and Kukavica mountain and Cemernik to the South.

The city of Leskovac is located where natural communications with intersection of all directions leading to the valleys of the Juzna Morava, Veternica, Jablanica and Vlasina rivers flow in or out.

In the south of Serbia, in the region known for its natural beauties, fresh air and clean cold water, there is a centuries long tradition in small fruit and mushroom picking.

Valley is suitable for agricultural production especially for vegetable production. Agricultural potential of the region provides opportunities for investment in capacities for production of healthy food.
Transport infrastructure

The road network of the city of Leskovac consists of 614 km of categorized roads. Since the total length of roads, 68% of roads are covered with modern roadway, of which belongs to the local road network 38.3% (152 kilometers).

The state of road network is as follows:
