Building permission procedure

City of Zaječar is among those cities in Serbia which had the dynamic development activities in the past few years and fought for the status of attractive destination for investors. Investors first of all want information about procedures and steps for obtaining building permits. With the aim of faster delivery of requested data to potential investors LED Department, in cooperation with the Department of City Planning, Construction, Housing and Communal Affairs have prepared this Guide for obtaining building permits.

The entire procedure of obtaining building permits for residential, business and economic constructions, which builds on the already-formed building plot, involves the following steps:
